10 Ways to Make a Difference in Your Community

The founding and ongoing purpose of the Sault Area Hospital Foundation is to raise funds for the Hospital. To do this, the Foundation seeks community involvement through donations from patients, their families and friends, businesses, service clubs, and other organizations.

Government funding provides the basics in healthcare. But these basics do not include the full cost of new medical equipment. New equipment and upgrades to patient care facilities and programs have always been considered a community responsibility.

Our community has recognized this and through donations to the Foundation has provided more than \$6 million in support of medical needs.

It is only through the generosity of donors that our Hospital can acquire much needed medical equipment that saves and improves the lives of patients. Here are some examples of new equipment that would be unavailable without our donors:

- Cardiac Imaging Suite
- Renal Dialysis Unit
- Breast Biopsy Unit
- Mobile Fluoroscopy Unit, a special x-ray machine used in the Operating Room
- Cell Separator Unit to ensure blood products will be available locally for our cancer patients
- Cardiac Monitors

10 Ways You Can Make a Difference Today!
